

Installation of MacUncle Products

Users can easily install MacUncle products on their macOS based computer by performing the given steps.

- Download the latest version of any MacUncle Software from the official website. (<u>https://www.macuncle.com/products.html</u>)
- ✓ Double click on the downloaded DMG file to continue.
- After that, you will see MacUncleSoftwareFinal.pkg file in your Mac OS X Machine. No double click on the PKG file.

✓ If you are showing "MacUncleSoftwareFinal.pkg can't be opened because it is from an unidentified developer." Related message then click on the Ok button.

✓ Now go to Security & Privacy settings and click on the Open Anyway option as you can see in the respective screenshot.
